85 CARLOADS OF CIRCUS IT'S ZIPPY, YIPPY, NIPPY

and the first train bearing the preliminary essentials to the circus enroute is due to arrive shortly after midnight.

The circus has just completed a tour of California, Washington and Oregon, playing the important points to indicate large attendance and the exhibition has been everywhere characterized as the most entertaining and diverting ever taken under four.

The first thing upon the circus day program is the street parade at 10 o'clock tomorrow morning. The parade will take on the nature of a huge moving horse fair, over 200 horses being in line. There will be 12, and where conditions permit, 24 splendid percherons drawing the leading band chariot, and the man who used to find two cents perching when he took his girl out for a lively stable ride on Sunday, can look with wonder at the magnificent chariot, who pilots this remarkable "bitch". There will be large displays of wild animal life in open cages and a number of elephants will make the journey afoot. There will be bands galore.

Two Performances.

The circus itself, which is scheduled for 2 and 8 o'clock p. m., is pledged to be "the very best" in excellence and variety. Following the new agent, says the dictionary would be torn into shreds in even a feeble effort to do it.

In its essentials one big circus must be like another, for the public expects the circus of today to be at least reminiscent of the circus of a generation ago. It is in keeping the circus circus and at the same time in step with the march of progress that the opportunity of the managers is taxed.

Follows asserts that there's nothing the circus could do to prevent the circus ever had, and there's a whole lot they will present tomorrow "which no other circus could afford to present."

It will be the biggest, brightest, swiftest circus that ever flashed through three solid hours of solid fun and wonder, making memories of former circuses fade into limbo," is his further declaration.
